

Mode for the Proseminar on Linear Algebra

- **Organization:** We will use OLAT on a weekly basis for downloading **exercise sheets**, uploading **student solutions**, filling in **tally lists**, broadcasting **student presentations** and downloading **standard solutions**.

The exercise sheets will be available on **Monday**, and both the solutions and the tally lists are due on **next Monday 8:15 am**. With the tally list we can verify that the uploaded solutions are complete. Please provide your solutions in a single PDF file and check whether it is **readable** before uploading. On request the solutions of the exercises have to be explained on the blackboard or whiteboard. **Questions** concerning the proseminar can be asked in the **OLAT forum** or per Email.

- **Evaluation:** Please observe that according to the general regulations on tutorials *attendance is compulsory* and *examination is immanent*. We will evaluate the uploaded solutions by a **ternary system**:

- correct: **1**
- partially correct: **1/2**
- incorrect: **0**.

You will get a passing grade if you cumulatively

- submitted solutions for **at least half** of the total number of exercises,
- scored **at least one third** of the total number of points, and
- gave **at least one** satisfactory presentation of your solution to an exercise.
